

EcoVadis 2026 Results

A consistently high standard, driven by real progress in Ethics.

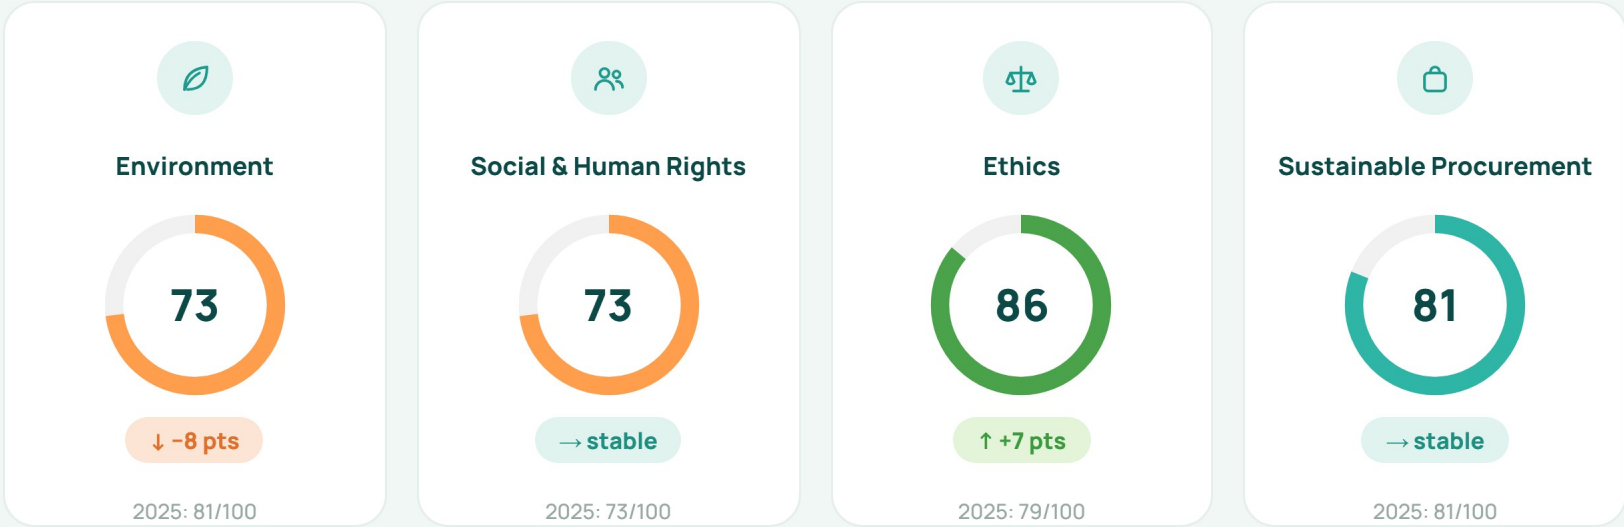

SILVER MEDAL 86th percentile – top 15% of companies assessed

This result follows the **Gold** medal obtained in 2025 (77/100, 95th percentile). The score remains strong: it reflects a targeted tightening of EcoVadis criteria, not a general decline in our practices.

2025	2026	VALID UNTIL
Gold · 77/100	Silver · 75/100	Sept. 2027

Our performance by theme

2025 → 2026 comparison

A concentrated decline, not a general one. Environment (–8 pts) alone accounts for the drop from Gold to Silver. Social and Sustainable Procurement are stable, and Ethics improves markedly (+7 pts) thanks to the work done on the whistleblowing system and the National Pact.

NEXT DEADLINE

Renewal before 29 September 2027

39 corrective actions identified, 3 of them priority – all related to Environment.
